(54) Title: EMISSION DEVICE INTENDED TO BE COUPLED WITH A RECEPTION DEVICE

(57) Abstract: The invention proposes a radio wave emission block 102 intended to modify a satellite-based reception installation into a cheaper emission/reception installation. The emission block 102 comprises a first input/output terminal 150 and a second input/output terminal 152 electrically linked to the first input/output terminal 150 by way of a band rejection filter 153 which rejects the intermediate emission frequency band. The invention also pertains to a transmission device comprising a reception block 101 coupled with the emission block 102.

INTERNATIONAL SEARCH REPORT

International Application No

PCT/EP 03/10106

A. CLASSIFICATION OF SUBJECT MATTER
 IPC 7 H04B1/18 H04B1/40

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 H04B

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data, PAJ

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
Y	WO 00/03494 A (ACT WIRELESS) 20 January 2000 (2000-01-20) abstract page 8, line 10 - page 11, line 22 figure 2A	1,2
Y	US 6 366 620 B1 (BOURNER DAVID ET AL) 2 April 2002 (2002-04-02) abstract column 1, line 1 - column 2, line 55 column 6, line 63 - column 9, line 48 figure 4	1,2

☐ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

* Special categories of cited documents:

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the international filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the international filing date but later than the priority date claimed

- *T* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- * & * document member of the same patent family

Date of the actual completion of the international search
